ABOUT ME

Civil Engineer specialized in Computer Science and with a focus on Data Science, passionate about providing efficient solutions through the use of advanced technologies and applying knowledge of Machine Learning and Data Science.

EDUCATION

Civil Engineering in Computer Science with specialization in Data Science | Pontifical Catholic University of Chile

📅 03/2018 – 07/2023   📍 Santiago, Chile

High School Education | San Benito School

📅 04/2004 – 12/2017   📍 Santiago, Chile

EXPERIENCE

Full Stack Developer and Data Scientist | Sundes Collection

📅 04/2021 – 07/2023   📍 Santiago, Chile

- Worked on cloud development projects using Google Cloud Platform and Firebase, achieving timely and efficient deliveries.
- Designed and implemented a Machine Learning model to predict house prices.

Scout Leader | Santiago Scout Group

📅 04/2018 – 07/2021   📍 Santiago, Chile

- Managed and supervised the finances of a 200-member scout group, optimizing resources and ensuring participation in key events.

PROJECTS

Data Science Portfolio | 🐙

- Portfolio of Data Science/Engineer applications, using AWS services such as S3, EC2, LAMBDA, ATHENA, and others like Apache Airflow or SnowFlake. More information in the repository's readme: https://github.com/Brocoleta/Brocoleta

---

Efficiency of Shilling Attacks in Modern Recommenders | 🐙

- Conducted a study on targeted attacks on recommendation systems, biasing their results in favor or against certain elements. The link to the document is available in the repository.
